CONTRAFORCE

Microsoft Security

Hyperautomate your cybersecurity

Every organization deserves robust, effective cybersecurity to keep them protected without sacrificing accessibility

Unlock simplified workflows and faster threat response when you streamline your cybersecurity with ContraForce and Microsoft Sentinel

INTIMIDATING SETUP

Businesses may not have the resources needed to deploy and configure advanced security information and event management (SIEM) and extended detection and response (XDR) solutions.

DAILY RESOURCE REQUIREMENTS

Ongoing maintenance and alert investigations can strain resources, especially for smaller businesses operating lean IT teams or teams that lack dedicated cybersecurity specialists.

LIMITED BUDGET

Many businesses and enterprises don't have the budget to manage robust, large-scale security operation tools and teams, potentially leading to gaps in coverage.

STREAMLINE DEPLOYMENT

With the power of hyperautomation, ContraForce can reduce deployment times for Microsoft Sentinel from months to weeks. Attach Microsoft Sentinel quickly and easily gain comprehensive coverage with no need for specialists.

STREAMLINE OPERATIONS

Take the manual toil and complexity out of cybersecurity operations with no-code connector integrations, alert verification, and one-click incident response.

STREAMLINE INVESTMENTS

Whether you are running Microsoft Business Premium, E3 or E5 licenses, or beyond, connect your solutions and data together in one platform to simplify management and fully access the powerful capabilities of your investments.

Simplify security management without sacrificing power or capabilities when you bring Microsoft Sentinel, Microsoft Defender, and more together through one streamlined platform that makes cybersecurity management a breeze

What our customers are saying

"Securicom combines our security operations with ContraForce's cutting edge hyperautomation platform to provide accessible, comprehensive security. With our partnership, our business has better insight into our cybersecurity landscape, and we benefit from more than two decades of experience in the industry. We are able to drive aggressive business impact that we weren't able to before."

– Richard Broeke, Managing Director, Securicom

AUTOMATED SECURITY MONITORING

Leverage the power of AI to automatically detect and verify threats, eliminating false positives and flagging only what matters to your team.

ONE-CLICK INCIDENT RESPONSE

Deploy your playbooks to respond to incidents with the click of a button. Stack multiple playbooks together into a gamebook and deploy simultaneously.

CENTRALIZED VISIBILITY

Connect your entire digital environment and solutions through a single centralized hub to streamline the visibility and management of your entire cybersecurity posture.
